Re: Combining Files, Shivwits Lode Claim, S/053/014 with South Shivwits Gypsum Project, S/053/008, Washington County, Utah

Dear Mr. Welsh:

Pursuant to you informing us that Saveall Corporation has been dissolved, and your earlier notification (1991 annual report) that Lanny Jensen's agreement with you had been terminated, we are combining the Shivwits Lode Claim, file #S/053/014 with the South Shivwits Gypsum Project, file #S/053/008. These projects are located in Sections 11 and 14, T41S, R18W, Washington County, Utah. Combining these files under your name, you are being designated as the responsible party for reclamation of these sites.

In January 1993, we combined the Shivwits Project, file #S/053/017 with the North Shivwits Gypsum Project, file #S/053/015. These projects are located in Sections 4 and 5, T41S, R18W, Washington County, Utah. Again, you will be held as the responsible party for continued operations and ultimate reclamation of these sites.

If our understanding of these projects is incorrect, please advise us accordingly. Thank you for keeping us updated on the status of your mining projects.

If you amend your projects, please refer to the North Shivwits or the South Shivwits file number, so we can keep our files correct.

Sincerely,

D. Wayne Hedberg
Permit Supervisor
Minerals Regulatory Program
